Safety Instructions

The projector is designed and tested to meet the latest standards for safety of information technology equipment. However, to ensure safe use of this product, it is important that you follow the instructions mentioned in this manual and marked on the product.

WARNING / CAUTION

1. If a problem occurs

- If smoke or strange odors arise, continued use could result in fire or electrical shock.
- If there is no image or sound, or the sound is distorted in the projector. In some cases, immediately remove the power cable from the power outlet. After making sure that the unit has stopped, contact your dealer for repairs. Never attempt to repair by yourself because this is dangerous.

2. Do....

- Place the projector in a stable horizontal position.
- Put the projector in a cool place, and ensure that there is sufficient ventilation.
- Consult with your dealer before a special installation such as suspending from a ceiling.

3. Do not....

- Do not place the projector on an unstable, slanted or vibrating surface such as a wobbly or inclined stand.
- Do not cover the projector's vents. Keep a space of 20 cm or more between the projector and other objects such as walls.
- Do not place the projector on metallic goods.
- Do not place the projector on carpet, cushions or bedding. Do not place the projector in direct sunlight or near hot objects such as heaters.
- Do not place anything near the projector lens or vents, or on top of the projector.
- Do not place anything that may be sucked into or stick to the vents beside the projector.
- Do not use this projector if there is no image or sound, or if the sound is distorted.
- Do not place this projector in a container containing liquid.

4. While connecting, make sure that the shape of the cable's connector fits the port to connect with. Be sure to tighten the screws on connectors with screws.
5. Do not disassemble or modify the projector and accessories.
6. Be careful not to damage the cables, and do not use damaged cables.
7. Use appropriate accessories or otherwise designed cables. Ask your dealer about non-accessory cables that may have other lengths.
8. Make sure that devices are connected to the correct ports. An incorrect connection may result in malfunction or damage to the device and the projector.
9. Do not look through the lens when the lamp is on.

Do not look through the lens when the lamp is on. The powerful light could adversely affect vision. Use special caution in households where children are present.

10. A strong light is emitted when the projector is powered on. Do not look into the lens of the projector or look inside of the projector.

Do not place the projector upon either side to project an image.

NO SIDEWARD

Do not point the projector down to project an image.

NO DOWNWARD

Safety Labels

Safety labels are used on or within the projector to alert you to items or areas requiring your attention.

Sound louder or lower.

12 INPUT

Select input source:

13 MENU

Display or hide the OSD main menu page.

14 BLANK

Blank the projected image. If the projector is left in blank mode for more than 15/30/60 minutes, the projector will automatically shut down.

15 AUTO

Automatically adjust the setting to match the current input.

16 (POWER)

Power on / operation mode, Standby mode, Cooling-down mode.

17 LAMP INDICATOR

Indicate a status in the projector internal temperature, lamp door properly closed or cooling down.

18 POWER INDICATOR

Light on or flash to indicate the operating status of the projector.

Rear

A MOUSE

Connect a USB mouse cable to a computer to control computer mouse functions.

B RS232

Serial data port for controlling the projector with a computer or other RS-232 control device.

C AUDIO IN 1 & D AUDIO IN 2

Mini jack port corresponds to computer input.

E AUDIO OUT

F RGB IN

Input analog RGB signal from a computer.

G RGB OUT

Connect an external monitor to this connection to view the “RGB IN” input.

H DVI-I IN

Input digital DVI-I signal from a computer.

I S-VIDEO

S-Video signal from a video source.

J VIDEO

Composite video signal from a video source.

K AUDIO IN 3, R / L

RCA type corresponds to video input.

L COMPONENT ,Y , Pb , Pr

Input Y,Pb,Pr signal from a DVD player.

M LAN

P Slot for Kensington Micro Saver

Security System

Built-in Security Slot

This security slot supports the MicroSaver[®] Security System. MicroSaver[®] is a registered trademark of Kensington Microware Inc. The logo is trademarked and owned by Kensington Microware Inc.

Arrangement

1. Before installation, make sure that the projector is turned off and the power cord is disconnected.
2. Do not set up and move the projector, while it is hot.
3. The distance between the projector and screen determines the actual image size. Refer to the table below to determine the screen size at a given distance.

Note: The dimensions in the table below are approximate.

| Screen size (diagonal) | | Distance (m) | | Distance (feet) | |
|------------------------|-----|--------------|------|-----------------|-------|
| inch | m | Tele | Wide | Tele | Wide |
| 40 | 1.0 | 1.36 | 1.11 | 4.47 | 3.62 |
| 60 | 1.5 | 2.07 | 1.69 | 6.78 | 5.54 |
| 70 | 1.8 | 2.42 | 1.98 | 7.93 | 6.51 |
| 80 | 2.0 | 2.77 | 2.28 | 9.09 | 7.47 |
| 100 | 2.5 | 3.48 | 2.87 | 11.40 | 9.40 |
| 150 | 3.8 | 5.24 | 4.33 | 17.18 | 14.21 |
| 200 | 5.1 | 7.00 | 5.80 | 22.96 | 19.03 |
| 250 | 6.4 | 8.76 | 7.27 | 28.74 | 23.84 |
| 300 | 7.6 | 10.52 | 8.74 | 34.52 | 28.66 |

When installed against a wall, leave about 20cm (7.9in.) between the projector and the wall.

Power ON / OFF

Turning On The Power

1. Make sure that power cord is firmly and correctly connected to the projector.
2. The POWER indicator will light up in green.
3. Press POWER button on the control panel or the remote control to turn on the projector.
4. Rotate the zoom ring to adjust the screen size.
5. Rotate the focus ring to adjust the focus.

! WARNING

- ★ A strong light is emitted when the projector's power is on. Do not look into the lens of the projector or look inside of the projector through any of the projector's openings.

2. **Power off?
Please press**

POWER
key again to power off.

Turning Off The Power

1. Press the POWER button on the control panel or the remote control. The "power off" confirmation message appears.
2. Press the POWER button again while the message appears.
3. When the projector enters "Standby" mode, the POWER indicator will light up in green.
4. If you don't use the projector, remove power cord.

! WARNING

- ★ Do not touch around the lamp cover and the exhaust vents during use or just after use, since it is too hot.

! CAUTION

- ★ Do not turn off the AC power for 60 seconds after the lamp is turned on. Doing so could cause premature lamp failure.

Discount-Merchant.com (800) 281-8860
THE TRUSTED SOURCE FOR PROJECTOR LAMPS AND ACCESSORIES

Setting Up

Setting Up The Projector

The projector supports the following four different projection methods.

1. Front projection

3. Rear ceiling projection

2. Rear projection

4. Front ceiling projection

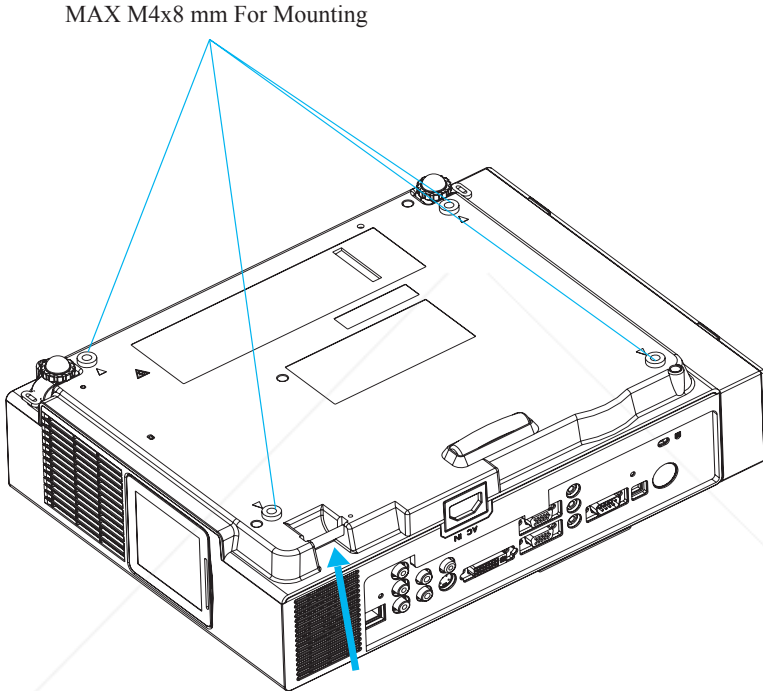

Discount-Merchant.com (800) 281-8860
THE TRUSTED SOURCE FOR PROJECTOR LAMPS AND ACCESSORIES

Special installation is required in order to suspend the projector from the ceiling. Please ask your dealer for details.

Ceiling Mounted Installation Guide

Attach ceiling mount at four-suspension bracket fixing points when suspending from a ceiling. Special installation is required in order to suspend the projector from the ceiling. Please ask your dealer for details.

Security Anchor

The product is equipped with security anchor and PIN LOCK (See page 33 for details) functions to help prevent unauthorized removal of the projector.

⚠ WARNING

- ▶ Do not grasp the security anchor to carry projector, since it is not designed for it.
- ▶ The security anchor is not for comprehensive theft prevention measures. It is intended to be used as supplemental theft prevention measure.

Adjusting The Projector's Elevation

Use the adjustable foot at the front of the projector to set the image height.

- 1 Holding the projector, push the foot adjust buttons to loosen the front adjustable foot.
- 2 Position the front side of the projector to the desired height.
- 3 Release the foot adjust buttons in order to lock the front adjustable feet.
- 4 Please make sure that the front adjustable feet are locked.

CAUTION

- * The adjustment range of front adjustable foot is 0 to 8.5 degrees.
- * When the foot is adjusted, it may cause the shape of the projected image to become distorted. Use the keystone correction function to correct this distortion.

Setting Up

How To Connect

Laptop or desktop computer

Before starting, make sure that the projector and computer are both turned off.

Connect the computer cable

Connect the computer cable from the computer to the projector's RGB IN. If needed, connect the MONITOR OUT to a monitor to view input from RGB IN. Tighten the screw on all connectors.

How To Connect

Laptop or desktop computer

Connect the audio cable if necessary

1. Please connect the audio cable to the AUDIO IN 1 if the computer cable is connected to the projector's RGB IN.
2. Please connect the audio cable to the AUDIO IN 2 if the computer cable is connected to the projector's DVI-I IN.
3. Please connect the audio cable to the AUDIO IN 3 if the video cables are connected to the VEDIO/S-VIDEO/Y,Pb,Pr port of the projector.

Connect USB Mouse

1. Before operating the wireless mouse, connect your computer and projector with supplied USB cable.
2. When a USB cable is connected to the computer and the projector, turn on the projector first, then the computer. If you turn on the computer first, the wireless mouse function may not operate properly.
3. When the projector and computer are turned on, the appropriate drivers should load automatically.

☞ If the selected video image is not displayed after the projector is turned on and the correct video source has been selected, please check whether the video source device is turned on and operating correctly. Also check whether the signal cables have been connected correctly.

☞ Many laptop computers may need to change the setting for monitor output when connecting to the projector. Usually a key combination like **Fn + F3** or CRT/LCD key turns the external display on / off. Locate a function key labeled CRT/LCD or a function key with a monitor symbol on the laptop. Press Fn and the labeled function key simultaneously. Refer to your laptop's documentation to find out your laptop's key combination.

Remote Control Batteries Installation

1. Remove the battery cover.
2. Load the batteries.
Make sure the poles are correctly oriented.
3. Close the battery cover.

Caution

- ▶ Avoid excessive heat and humidity.
- ▶ Do not drop the remote control.
- ▶ If the remote control will not be used for an extended period, remove the batteries.
- ▶ Do not expose the remote control to water or moisture. This could result in malfunction.
- ▶ Replace the battery when remote control operation becomes sluggish or unresponsive.
- ▶ Do not place the remote control close to the cooling fan of the projector.
- ▶ Do not use batteries of different types at the same time.
- ▶ Do not mix a new battery with used one. Make sure the plus and negative terminals are correctly aligned when loading batteries.
- ▶ Dispose of batteries in accordance with environmental laws.
- ▶ Do not disassemble the remote control. If the remote control needs service, please contact your dealer.

Remote Control

POWER

Power on / operation mode, Standby mode, Cool down mode.

INPUT

Select input source :

MENU

Display or hide the On-Screen Display main menu page.

Press or to select On-Screen Display menu item.

Press or to select and adjust the function of On-Screen Display menu item or value.

LASER

Aim the remote control at the screen, press and hold button to activate the laser pointer.

MUTE

Mute audio.

AUTO

Refresh the current image.

BLANK

Hide the current image, become black color on the screen.

Press / / / button to move arrow direction of window.

MOUSE-L / MOUSE-R

The function is like mouse of desktop/ notebook.

Remote control's mouse functions only will work if the USB cable is connected (see page 15 for instructions)

Menu Operation

How To Operate On-Screen Display

1. Press "Menu" button. Following menu will appear.
2. Choose the item you want to enter. Press up / down /left/ right button on control panel or remote control to adjust item or value.

2. Use the ◀ / ▶ buttons to select an item or adjust the value.

| Item | Selection | Description |
|------------------|-------------------|---|
| AUTO CEILING | OFF / ON | Automatically invert the image when the projector is turned upside down, i.e. when the projector is mounted on the ceiling. |
| FRONT | EXECUTE | Normal projection mode. |
| CEILING | EXECUTE | Mirror the image vertically, only for the projector mounted upside down. |
| REAR | EXECUTE | Mirror the image horizontally, only for projecting onto rear projection screen. |
| CEILING AND REAR | EXECUTE | Mirror the image horizontally and vertically. Projecting onto a rear projection screen while projector is upside down. |
| LAMP MODE | NORMAL / ECONOMIC | Switch lamp mode normal or ECO mode. |
| LAMP | | Show lamp use time. |
| RESET LAMP TIMER | EXECUTE | After changing a new lamp, execute this function to reset the lamp timer. |

Presentation Menu

Reset Lamp Timer

The lamp timer is the time counted after the last resetting. The usage time of the lamp is shown in the PRESENTATION Menu. Pressing the RESET button or the ► button displays a dialog.

To reset the lamp time, select the RESET using the ► button.

NOTE

- The replacement warning message is set to appear after about 2000 hours of lamp use in order to maintain the initial brightness. When replacement message appears, replace the lamp with a new one as soon as possible, even if the lamp is still workable..

Security Menu

Step:

1. Use the ▲ / ▼ buttons to select an item.
2. Use the ◀ / ▶ buttons to select an item or adjust the value.

| Item | Selection | Description |
|---------------------|---------------------|---|
| PIN LOCK PROTECTION | OFF ON 1 ON 2 | <p>OFF: Turn off PIN lock protection. ON 1: PIN code is needed only at the first time after AC power has been switched on. ON 2: PIN code is needed every time while the projector is turned on.</p> <div style="border: 1px solid black; padding: 5px;"> <p>⚠ CAUTION: Once the PIN code had been set, the projector cannot be used unless you enter the correct PIN code.</p> </div> |
| MODIFY PIN | EXECUTE | <ol style="list-style-type: none"> 1. Press “ MENU ” on the projector or remote control. 2. Use the ▶ button to select the MODIFY PIN item in the SECURITY category. 3. Press the ▶ button to change PIN LOCK PROTECTION mode. 4. Please enter the original PIN code. <ol style="list-style-type: none"> (a) If the PIN is correct, system will allow you to change a new PIN code. (b) If the PIN is incorrect, a “ Code Error ” message will appear. 5. Please enter a new PIN code. And then enter again to confirm. <div style="border: 1px solid black; padding: 5px;"> <p>NOTE: (1) To change the PIN lock protection state, you must enter the PIN code first. (2) Please enter: 0000 for first-time use. (3) To avoid unnecessary trouble, if you activate the [PIN Lock Protection], it is highly recommended that you write down the PIN code and store it in a safe place.</p> </div> |

THE TRUSTED SOURCE FOR PROJECTOR LAMPS AND ACCESSORIES

Security Menu

Step:

1. Use the ▲ / ▼ buttons to select an item.
2. Use the ◀ / ▶ buttons to select an item or adjust the value.

| Item | Selection | Description |
|--------------------|--|---|
| FILTER TIMER | | Show the filter use time. |
| RESET FILTER TIMER | EXECUTE | Reset the filter timer after cleaning / changing filter. |
| FILTER COUNTER | 500 hours 800 hours 1000 hours | Select (500 / 800 / 1000 hours) depending on the environment.(default : 500 hours). Please see next page. |
| MAC ADDR. | | For LAN control module, "MAC ADDR." will be shown in "SECURITY" Menu. MAC address stands for unique Media Access Control address of LAN control module and displays with six groups of two hexadecimal digits. |
| CLOSED CAPTION | OFF(Default) C.C1 C.C2 C.C3 C.C4 T1 T2 T3 T4 | The Closed Caption function intimates the sound effects, dialogue, and narration in the content of the television program or video source. Caption (C.C1~C.C4) : Display closed caption Text (T1~T4) : Display text data, which is for additional information such as news reports or a TV program guide. NOTE : This function is available only in video / S-Video source. |

Auto Filter Alert

Auto Filter Alert in SECURITY category shows the air filter use time and alerts user to change filter. When the operating time reaches the set time, a warning message will appear on the screen to remind user of filter cleaning /replacing.

NOTE

► Please reset the Filter time only when you replace the filter.

PIN Key In Operation

When the projector is turned on and the PIN LOCK PROTECTION is set to [ON], the image will show as on the right side.

1. Press the MENU button on the projector or remote control. Enter PIN code by keypad or remote control.
2. How to enter a PIN code?
You can use control panel or remote control.

Refer to photo below to enter a sequence of PIN code by control panel or remote control buttons.

- (1) Press ◀ button: Select the [1]
- (2) Press ▲ button: Select the [2]
- (3) Press ▶ button: Select the [3]
- (4) Press ▼ button: Select the [Enter] move to next row.(4~6,7~9, ◀~OK)
- (5) Press ◀ (backspace) item:
In case of enter a wrong digit, select ◀ to delete the wrong digit you entered.
- (6) Press OK (backspace) item:
Once all four digits of the PIN are entered, select OK to confirm.

NOTE

- (1) Please enter: 0000 for first-time use.
- (2) If the PIN is incorrect, a ' Enter new code ' message will be shown. Please try again. If the PIN code input is incorrect for three times, a warning message will show up and the projector will shut itself down in 30 seconds.
- (3) If you have no idea about the PIN, please contact your dealer for help.

Network Control Software Application

- 1 Register the projector(s) which needs to be controlled.
“ Auto search ” can help you to seek the projector(s) source easily.
After registering in the work group, you can start to control the projector.
- 2 Group the projector(s) into different sections.
You can monitor the status easily by GROUP NAME function in the network.
- 3 Monitor the status for each projector.
 - a.You can manage and change the monitoring content by System Parameter Setting.
 - b.The Lamp timer, filter working time or system warning feedback etc. can be obtained by checking the status of projector(s).
- 4 Control the booked projector(s).
The status can be refreshed and acquired by MONITOR functions; you can also operate the function easily by Network Control.

NOTE

To monitor and control the projector(including stand-by mode), the following conditions are needed to be ready:

- (1) Projector is powered on.
- (2) Projector is connected to network.
- (3) LED light of the projector network port shows normal. (Green light on, Orange twinkling)

* Stand-by mode indicator: Green LED (Power) on the projector’s control panel flashes.

Before Use

Before Using Network Control Software

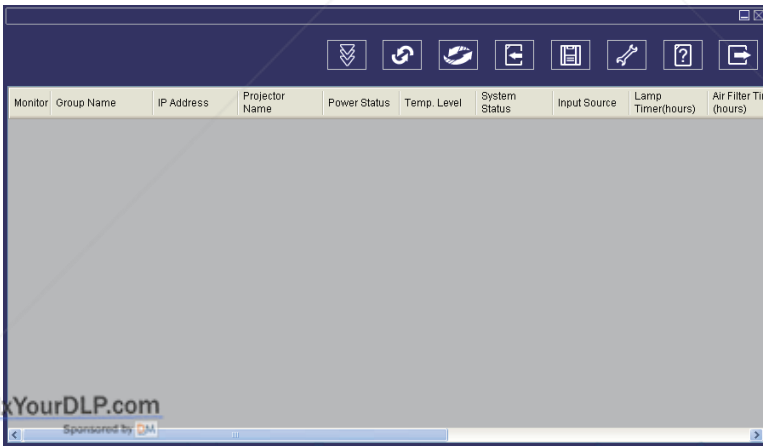

- 1 If the system is Windows 2000, NT 4.0 or XP, the PC should be started by the Administrator.
- 2 Before starting the Network Control software, please check the following.
 - (1) The computer is installed with Network Control software.
 - (2) The projector is powered on and the LAN wire is well connected to the projector.
 - (3) Make sure the computer and projector can connect to network. Network Control software needs to arrange in TCP/IP network communication and the network cable.

Activate Network Control Software

- 1 Click Network control software icon.

- 2 Monitor window will show as Graph 1.

<Graph 1>

Before Use

Projector Auto Search.

- 1 Click the  (Projector search), located projector will show on the network correctly. (Graph2)

| Connection Status | Index | IP Address | Projector Name | MAC | Gateway |
|-------------------|-------|------------|----------------|-----|---------|
|-------------------|-------|------------|----------------|-----|---------|

<Graph 2>

NOTE

When the security warning window appears while Network Control is executing, please select "Unblock" to disable area network linking control from System Administrator.

- 2 Click  (search again), the projector which is well connected with a PC will be shown. (Graph3)

| Connection Status | Index | IP Address | Projector Name | MAC | Gateway |
|-------------------|-------|---------------|----------------|------------------|-------------------|

| <input checked="" type="checkbox"/> | | 192.168.1.138 | Projector 3 | | | | | | |
| <input checked="" type="checkbox"/> | | 192.168.1.139 | Projector 4 | | | | | | |

<Graph 4-2>

- After registering, you can click  button (Data single capture) in the tool bar or click  button (Start Auto Scan) to monitor the projector(s).

NOTE

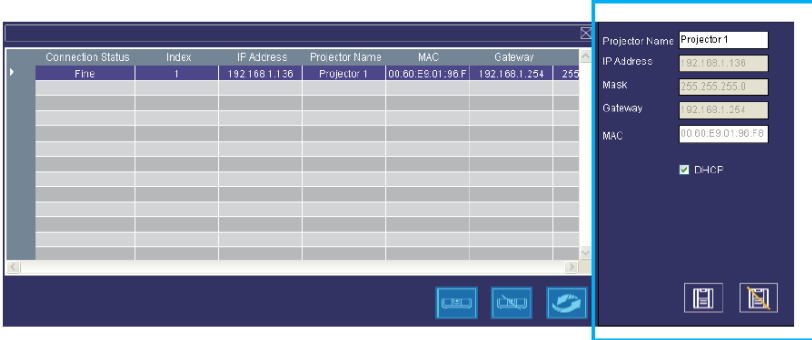

When pressing  (About) button for help, you will see icons explained as in the chart.

Before Use

Modify The Projector Setting

- 1 If modifying the registered projector setting is needed, please move your cursor to the data table and click the item that you would like to modify. The detail will be shown on the right side table.

< Graph 5 > : Register Table.

- 2 After changing the projector setting, you can save the data by clicking  button or cancel by clicking  button.

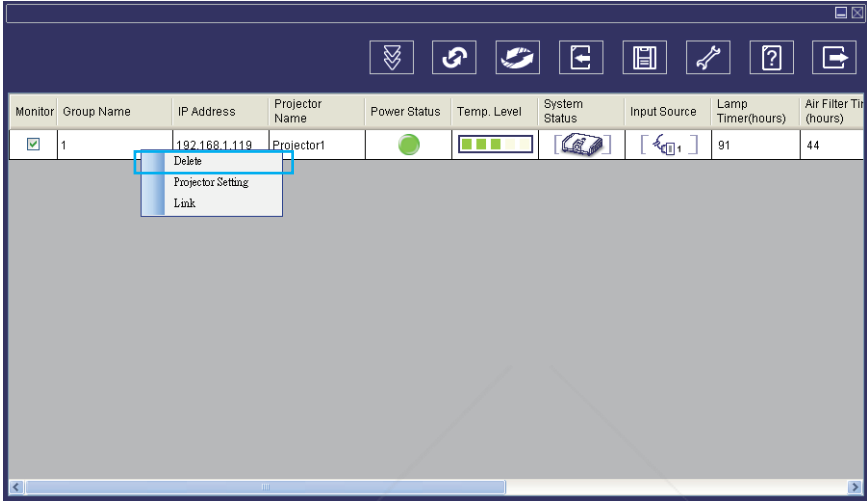

| Item | Description |
|----------------|---|
| Projector name | Show the Host name. (16 characters at most in ASCII.) |
| IP Address | Show the IP Address. |
| Mask | Show the Mask. |
| Gateway | Show the Gateway. |
| MAC | Show up the MAC code. (The default value can not be modified.) |
| DHCP | Capture IP address from network sensor automatically. |

< Table 1 > : Setting Windows.

Registering And Configuring The Projector

Delete

- 1 Select the registered projector in monitor window. Click mouse right key and select “ Delete ” to erase the registered projector data.

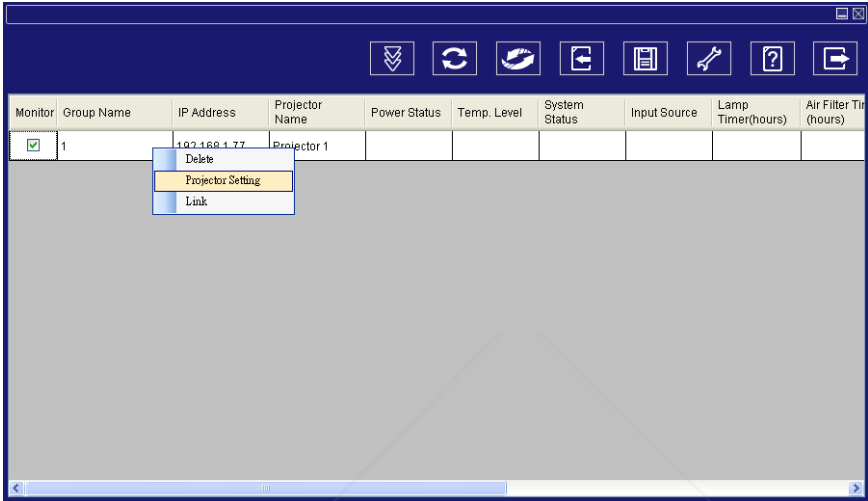

< Graph 6 > : Register Table.

Registering And Configuring The Projector

Projector Setting

- 1 Select the registered projector in monitor window. Click mouse right key and select “ projector setting ” to modify the registered projector data. After finishing the setting, you can save by clicking  button or cancel by clicking  button.

< Graph 7 > : Register table.

< Graph 8 > :Setting

Registering And Configuring The Projector

System Setting

- 2 Click  button (system setting) to modify system alert setting.

The screenshot shows a software window with a toolbar at the top containing icons for home, refresh, undo, redo, print, edit, help, and close. Below the toolbar is a table with the following columns: Monitor, Group Name, IP Address, Projector Name, Power Status, Temp. Level, System Status, Input Source, Lamp Timer(hours), and Air Filter Tim (hours). The first row of the table is selected and contains the following data:

| Monitor | Group Name | IP Address | Projector Name | Power Status | Temp. Level | System Status | Input Source | Lamp Timer(hours) | Air Filter Tim (hours) |
|-------------------------------------|------------|---------------|----------------|--------------|-------------|---------------|--------------|-------------------|------------------------|
| <input checked="" type="checkbox"/> | 1 | 192.168.1.119 | Projector1 | | | | | | |

< Graph 9 >

The screenshot shows a settings dialog box for a monitor. It has two sections: "Monitor" and "Default Setting".

Monitor

- Lamp Timer
- System Status / Temp. Level
- Air Filter Alert
- Input Source

Default Setting

- Air Filter Alert (hours): 500
- Lamp Timer Alert (hours): 2000
- Auto Scan Timer (minutes): 1

At the bottom right of the dialog box, there are two icons: a floppy disk icon and a document icon with a diagonal slash through it. A watermark "FixYourDLP.com" is visible in the bottom left corner of the dialog box.

Filter

Sponge Filter

When a warning message appears to remind you to clean the sponge filter, please clean the sponge filter immediately. (P.32)

<Please check and clean the air filter periodically.>

Replacing the Anti-dust filter (Part Numcer:13340230)

When the use time reaches the filter counter time, the projector will display a message to remind replacing a new filter. If there is no spare air filter available, please contact your dealer.

When the use time reaches the filter counter time, the projector will display a message to remind replacing a new Anti-dust filter. If there is no spare Anti-dust filter available, please contact your dealer.

Turn off the projector, and unplug the power cord. Allow the projector to sufficiently cool down.

1. Remove the filter cover from the side of projector.
2. Pull out the Anti-dust filter and pack the filter in plastic bag before disposing it.
3. It is recommended that you clean dust on the filter cover by vacuum cleaner, then gently brush the other side of the filter cover by brush.(Please do not clean the sponge filter with water.)
4. Install Anti-dust filter and press the filter until it is tightly loaded into the filter case.
5. Close the filter cover. When installing, make sure the two extruded points on the filter are facing downward.
6. After installing Anti-dust filter, reset the filter timer.(P.30)

Notice:

When upper right corner of the image appears warning message as the graphic shows, it indicates there is a problem with the installation of the Anti-dust filter. Please check again if the Anti-dust filter is firmly installed.

1. Please check if Anti-dust filter is installed or not?
2. Please check if the filter cover is properly closed or not?

Maintenance of Projector

Lamp

1. If you want to replace new lamp, but the projector was just turned off, please let the projector cool down and unplug power cord at least 60 minutes.
2. If the projector is mounted in the ceiling, contact your dealer to replace the lamp.

Replacing New Lamp(Part Number:23040021)

1. Remove the lamp door.
2. Loosen 2 screws of the lamp holder. Hold the handle on the top of the lamp, pull out the lamp straight off the projector.
3. Insert new lamp, lock the lamp door firmly with 2 screws.
4. Put the lamp door on.
5. Please reset the lamp timer after replacing lamp. (P.29)

Reset Lamp Timer ?
Please, Select No/Yes to return default settings.

Lamp Reset No Yes

WARNING

The projector uses a high-pressure mercury lamp.

The explosion of lamp with a loud bang or burn out could possibly cause injury or a fire.

When the bulb bursts, it is possible for shards of glass to fly into the lamp housing; and for gas containing mercury to escape from the projector's vent holes.

If the lamp has broken, do not check the inside of the projector. Please ventilate the room immediately.

Do not touch or bring your face close to the broken pieces since it might get into your eyes or mouth. In case of injury, seek medical advice immediately.

Disposal of a Lamp

Dispose of a lamp in accordance with the local recycling laws.

Do not put it to your trash.

Recycling Lamp's laws of the USA, go to www.lamprecycle.org.

Recycling Product's laws of USA, go to www.eiae.org.

Recycling Product's laws of Canada, go to www.epsc.ca.

For more information about recycling laws, please contact local government agency or dealer.

CAUTION HOT

Before replacing the Lamp unit, pay attention to the following items:

1. The Lamp is optional part. Contact the dealer for replacement lamp.
2. The lamp becomes very hot when in use. Turn the power off and disconnect the power cord.
3. Wait for 1 Hour before replacing the lamp.
4. Do not use old lamp unit.

Discount-Merchant.com (800) 281-8860
THE TRUSTED SOURCE FOR PROJECTOR LAMPS AND ACCESSORIES

Maintenance of Projector

Additional

- In order to ensure the safe use of your projector, please contact your dealer to inspect about once a year.
- Before maintenance, make sure the power cable is unplugged, allow the projector to cool sufficiently. The high temperature state of the projector could cause a burn in and/or malfunction to the projector.
- Never try to maintain the inside of the projector by yourself.

Anti-smoke filter(Part Number:13340231)

- If the projector would be used in smokier environment, please use this filter.

Discount-Merchant.com (800) 281-8860

Troubleshooting

Indicator

The power and lamp indicators show the status of the projector. Before requesting repair, check the projector status using the chart below. If the problem cannot be resolved, contact your dealer.

In normal status~~~

| POWER | LAMP | CONDITIONS | DESCRIPTION |
|-----------------------------|------------------------------------|----------------|--|
| Blinking In Green | Off | Stand by mode | Projector is ready to be turned on. |
| Lighting In Green | Off | On mode | Projector is on and operating. |
| Lighting In Green | Blinking In Red (Slow) | Cool down mode | Projector is in cool down mode and will not respond to user input. |

In abnormal status~~~

| POWER | LAMP | CONDITIONS | DESCRIPTION |
|------------------------------------|------------------------------------|------------------|---|
| Blinking In Green | Blinking In Red (Fast) | Fan fault mode | The projector has detected a problem of a slow internal fan speed. The lamp will shut off automatically. Contact your dealer. |
| Blinking In Green | Lighting In Red | Lamp cover open | The lamp cover is open or there is a problem with the lamp. If the lamp door is closed and replacing the lamp does not correct the issue, contact your dealer. |
| Blinking In Green (Fast) | Blinking In Red (Fast) | High temperature | The projector has overheated and shut itself down. Correct the over temperature condition immediately. 1. Check that the ventilation slots are free from obstructions. 2. Check the cleanliness of the air filter. |
| Blinking In Green (Slow) | Blinking In Red (Slow) | Lamp fail | The lamp does not light. Come back to “stand by mode”, and press the power button. |

Troubleshooting

Error For Machine Defects

The following problems may be confused with a machine defect. Check and follow the table. If it couldn't be improved, contact your dealer.

| Symptom | Cause / Remedy |
|-----------------------------------|--|
| Projector power does not turn on. | The power cord is disconnected. Plug the power cord into an AC outlet. |
| | Intending to turn on the projector again during the cool down mode. Wait until the cool down mode has completed. |
| | There is no lamp and/or lamp cover is not firmly closed. Please turn off the power and disconnect the power plug from the power outlet. Check if the lamp is installed or the lamp cover is firmly closed and turn on the power again. |
| | Power cord has impaired. When you touch the power cord, the indicator goes on then off, please remove the power cord and connect it again. If the situation is repeated, remove the power cord and contact your dealer. |
| No Image | The input is not connected correctly. Select the appropriate input source. |
| | No signal input. Connect correctly. |
| | The lens cover is attached to the lens. Remove the lens cover. |
| Colors are pale | Color density and color matching are not adjusted correctly. Adjust the RGB setting. |
| | Color lose. Caused by poor VGA cable connection. |
| Abnormal brightness & contrast | Brightness and contrast are not adjusted correctly. Adjust the brightness and contrast setting. |
| | The lamp is near the end of its service life. Replace with a new lamp. |
| Image is blurred | The projection lens is not focused. Adjust the focus using the focus ring. |
| | The lens is dirty or misty. Clean the lens. |

Troubleshooting

Error For Machine Defects

| Symptom | Cause / Remedy |
|--------------------------------|--|
| No audio | The projector is not connected correctly. Check audio cable if connect correctly. |
| | The volume is set to minimum. Adjust the volume. |
| | Mute is turned on. Press the MUTE button. |
| Remote control is not working. | No battery. Before using the remote control, please check the battery of remote control. |
| | Remote signal is obstructed. Remove the obstacle between projector and remote control. |
